

Amazing

Miss Liberty Star Party Lake Cruise

On May 24, 2014,

Earth will pass through a dense stream of dust particles shed by Comet 209P/LINEAR.

It is projected to peak at approximately 12 midnight in the general direction of Camelopardalis- a constellation near the the north star.

This could be a spectacular new meteor shower!

Join us aboard Miss Liberty for her very first star party from 11:00 pm to 1:00 am.

Our tour includes light hors de voures, a meteor night champagne toast or one of our delicious hot coffee drinks and perhaps the most spectacular viewing area in the northern hemisphere.

Bring your binoculars, telescopes and warm clothes...blankets optional.

Seating is limited so make your reservations early! \$35 per person

Reservations (909) 866-8129

Miss Liberty at Pine Knot Marina

439 Pine Knot Avenue,

Big Bear Lake, CA 92315
